

Kit Agreement Form

Each player will be given kit at the start of the season, which they will take care of and wear to all match days, and then hand back at the end of the season to the club. The benefits of this will include;

- Strengthen the relationship between the player and the club, they should feel more commitment and dedication towards their team and feel as though they are part of something.
- Promote the Tondou United FC brand when travelling to and from matches.
- Build a better match day experience when the young players get ready for matches at home and build up their anticipation for the day ahead.
- Remove the role of kit washer from designated person or coach.
- Less stress and hassle changing players in cars or changing rooms (if available).

In return, we are asking for a REFUNDABLE deposit of £20 per kit. This gives us the financial security needed should we have to replace any lost or damaged kit. The deposit refund will be provided when the kit is returned in full, providing it is in the same condition/state as it was given.

PLEASE NOTE

The kit will always remain the property of Tondou United FC.

Kit must only be worn on match days. Players should not wear this kit at training or for personal activities such as school PE kit or playing out.

Your team coach will take payment and signature from you at the beginning of the season. Thanks again for your continued support of Tondou United FC.
